

Hexaware-GenAI

*Unlocking Innovation-
Your Path to AI-Driven Excellence*

Scope Of the project

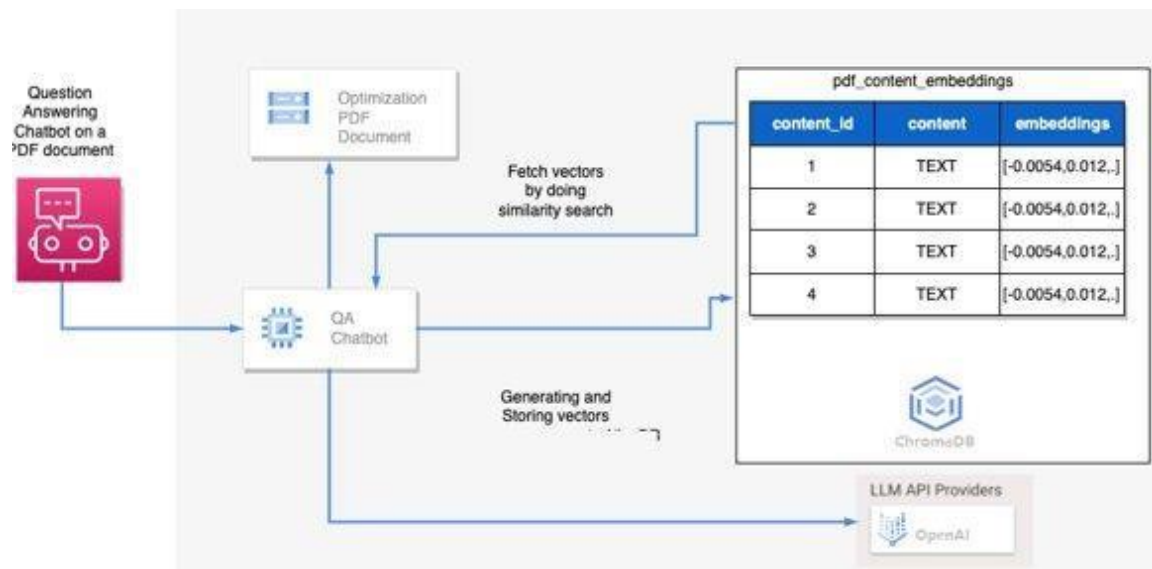

Project Title :

Project Objectives:

Deliverables:

Design

Design Diagram

Design

Design Description:

Chat Interface:

QA Chatbot Module:

RAG Technique:

Azure OpenAI Integration:

Design

Workflow

Test Cases

Positive Test Cases

TC #1: Document Upload Success

TC #2: Question Submission and Answer Retrieval

TC #3: Embedding Creation and Storage

TC #4: RAG Technique Functionality

TC #5: Azure OpenAI Integration for Answer Generation

Test Cases

Negative Test Cases

TC #6: Document Upload Failure Handling

TC #7: Question Submission with No Document

TC #8: Incomplete Embedding Data

TC #9: RAG Technique with Irrelevant Data

TC #10: Azure OpenAI Downtime Handling

Tools and Code details

Third party tools Details:

Tools name	Open source/Licensed	URL	Purpose
ChromaDB	Open source	https://pypi.org/project/chromadb/	To store vectors of the document
Pypdf2	Open source	https://pypi.org/project/PyPDF2/	To read PD document into text

Technologies used to develop in this project

Technology name	Version	Purpose
Python	3.8	Backend development
React JS	18.0	Web UI development
Azure OpenAI	Chatgpt-4	LLM model

Thank you
